

# OIL

Unrefined, cold, expeller pressed

**EDEN® Oils** attend to the delicious necessity of the fat we must have. They contain antioxidant essential fatty acids that naturally protect them, and us. Slow, cool, oil pressing protects their phytonutrients, character, flavor, and value. In unrefined EDEN Olive, Sesame, Toasted Sesame, Hot Pepper Sesame, and Safflower Oils the bouquet, color, and flavor of the seed remains distinctly evident. EDEN Oils are what vegetable oils are supposed to be. They are beneficial, pure, nutritious, flavorful, and ethical. EDEN unrefined and organic vegetable oils are free of chemical solvents and do not contain GMOs.

**Glass light absorption** ~ Brown absorbs most, protects better than blue or green. EDEN bottles in brown glass, preventing light-induced damage to nutrients, and flavors, maintaining value.

## Extra Virgin Olive Oil

*Spanish extra virgin, cold pressed*

The first cold, stone pressing of three varieties of green and dark purple olives from centuries-old groves in Andalusia, southern Spain. *Prevention Magazine* highest rated 'All Around Best Buy'.

A good source of antioxidant vitamin E.
