

Oil & Vinegar

Unrefined Traditional

E **DEN® Oils** attend to the delicious necessity of the fat we must have. They contain antioxidant essential fatty acids that naturally protect them, and us. Slow, cool, low heat oil pressing protects their phytonutrients, character, flavor, and wisely sought after value. In unrefined EDEN Olive, Sesame, Toasted Sesame, Hot Pepper Sesame, and Safflower oils the bouquet, color, and flavor of the oil seed itself remains distinctly evident. The sensory assurances let us know valuable intrinsic efficacies remain present. EDEN Oils are what vegetable oils are supposed to be. They are much more beneficial, pure, nutritious, flavorful, ethical, and commonsensical. EDEN unrefined and organic vegetable oils are free of chemical solvents and do not contain GMOs.

E **DEN Vinegars** are authentic vinegars containing valuable, beneficial organic acids, bacteria, enzymes, and phytonutrients. Their uniquely superb flavors and fruity bouquet are only achieved through the finest ingredients, artisan skill, and the patient, tended aging that mellow them. EDEN Apple Cider and Red Wine Vinegar are raw and unpasteurized containing living 'mother' that shows as a cloudiness. 'Mother' is the reason raw vinegar has such a healthy repute. A 1,000-year-old method creates EDEN Brown Rice Vinegar. It is aged in covered crocks partially buried in the earth. Its sweetness is essential in making sushi, which means vinegared rice. EDEN Ume Plum Vinegar is raw, treasured pickling brine from making umeboshi plums, used since ancient times to flavor and preserve foods.

- Unrefined, cold and expeller pressed
- Slowly made, lightly filtered
- Beneficial essential fatty acids (EFAs) and antioxidants
- Raw, unpasteurized offerings helpful 'mother' of vinegar
- Traditionally made / patiently aged
- Amber glass protects aroma, color, flavor, and nutrients

Light absorption of glass ~ Brown absorbs most. It protects better than blue or green. Eden bottles in brown glass preventing light-induced damage to nutrients, flavors, and color. This best maintains integrity.

Oil
