Authentic organic EDEN Refried Beans are puréed, and whole bean pieces are mixed back in for a nicer result. Repeatedly rated ‘**Best in Flavor and Nutrition**’ of all refried beans by *Men’s Health* magazine, who also honor them as a ‘**Best Food For Men.**’ EDEN Refrieds have less than half the sodium of other brands.

Grown in healthy living soil, no added fat or excessive salt to offset the lost flavor of chemically grown commercial beans. Real organic beans are delicious without a lot of salt. Versatile nourishment, protein, antioxidants, fiber, and satisfying taste.

EDEN Refried Beans are not fried – soaked overnight, steam blanched, puréed to creamy, whole bean pieces added for texture and looks, pressure cooked, labeled, and cased.

Five kinds – Three are just delicious beans and EDEN Sea Salt. Two contain delightful organic spices and organic vegetables.

EDEN Refried Beans are rare indeed; chemical additive free, authentically organic in bisphenol-A (BPA), bisphenol-S (BPS), and phthalate free cans, which we pioneered.
