HEMP FLOWER EXTRACT *in Organic Hemp Seed Oil*

Our patented process starts with organic hemp flowers, separated and dried. Cryogenic extraction is used to isolate Cannabidiol and Cannabigerol with utmost purity. These crystals are then dissolved in Non-GMO hemp seed oil and fortified with sunflower seed vitamin E to preserve taste. EDEN Hemp Flower Extract guarantees satisfaction through purity, potency, and consistency.

PURE & PURIFYING™ Pure organic hemp offers numerous benefits for people and our planet. Empirical evidence strongly suggests hemp is a natural alternative for managing symptoms and acts as a cleansing crop, removing toxins from soil. Hemp is highly favored by bees and boasts immense economic and social value due to its remarkable versatility.
