

KOSHER

Pure and Purifying™

Eden Foods has managed certification of its kosher foods since 1982. Today over 89 percent of EDEN food is kosher. EDEN chose the Organized Kashrus Laboratories of Brooklyn, New York and their 'circle k' mark because of their reputation for authenticity and meticulous attention to detail dating back to 1935. EDEN began to do this after realizing that EDEN's natural foods were already, by virtue of our selection criteria, completely qualified for kosher status. The k when it appears alone means that a food is 'pareve' as well as kosher. Pareve indicates all ingredients, food contact surfaces, processing, and storage equipment are certified meat and dairy free.
