

EDEN

Cannellini Beans

Pure Nourishment

Organic EDEN Cannellini (White Kidney) Beans are soaked overnight, blanched, and pressure cooked at Eden Foods' cannery in Indiana. The small amount of kombu sea vegetable improves taste, smoothness, digestion, and assimilation.

Cannellini Beans have thick skin for a white bean which makes them good in minestrone soup.

Better taste and more nourishment from pure EDEN Beans.

EDEN Cannellini Beans

A firm delicious white bean. Green flecks of EDEN kombu sea vegetable provide unique amino acids for better taste, digestibility, and a creamy smoothness.

Thicker Cannellini skin is desired for long-cooking soup, stew, or chili as they retain their shape through cooking.

108 oz #10 Can

Case Pack 6/108 oz

EDEN Cannellini Beans are good for salads, soups, stews, dips, and with pasta; the traditional bean used in minestrone soup. Purée as a crostini bread dip or spread. For a common Tuscan style sauté with EDEN extra virgin olive oil and sage. Beans raised in pure, vital, organic soil taste and nourish so much better.
