*Organic Kamut from a few of 80,000 acres of vital GEO free farmland nurtured by Nature.*

**EDEN® Organic Kamut** is the ancient grain Khorasan from the high plains of Montana. A close relative of spelt and distant relative of durum wheat, Khorasan was revived in 1949. Its large golden kernels offer the highest protein of any wheat and make superior whole grain pasta with mild, sweet flavor and smooth texture. Many sensitive to modern wheat enjoy it.
